Chance for Childhood

We fight for every child

WHAT WE DO

We work in Ghana, the DRC, Kenya, Uganda and Rwanda

We focus on 3 key areas:

Education: We work with teachers to provide individualised support for children with disabilities and learning difficultiies

Health: We use our award winning Disability Detect App to screen children for disabilities and connect them to health services

Economic resilience: We equip families with access to financial services, savings groups, and small business support

A world where every childhood is filled with safety, belonging and play
